Stallion by Wilmats Cloud is a cloud based version of the Stallion by Wilmats racing industry accounts software developed in Australia by Wilmats Application Software.

Stallion by Wilmats has been established in the Racing Industry for over 25 years and is used by hundreds of trainers, vets, syndicators and agistment clients across Australia, New Zealand and South Africa.

Our new version of Stallion by Wilmats is a cloud based system which will allow you to access your accounts from your PC, MAC or iPad.

Key features include:

- split billing—horse charges are divided according to ownership percentages
- unlimited user defined charge/service codes
- automatic calculation of daily training or agistment charges
- email accounts—can be sent directly from the software
- history accounts—previous accounts can be printed or emailed
- invoices can be exported for import into MYOB, Reckon or XERO
- low cost, monthly subscription
